July 2010

How the program is growing!

Project La Cena continues to grow as more students hear about the program and come to speak with the Project Manager about the wonderful opportunities the project has to offer. Project La Cena estimates to have about 45 student members enrolled for the Fall semester. These students will get to participate in a variety of learning resources, such as networking at the San Antonio Dietetic Association meetings, getting to hear lectures by nu-

trition professionals about what job opportunities are currently available in the field, as well as current nutrition information, and of course, the opportunity to receive scholarships! These students will also get to go on fieldtrips to Texas State University, the University of the Incarnate Word, and three students will also be selected to attend the American Dietetic Association Conference in Boston!
